Jason Scott Smith – eLearning Portfolio (One-Page Summary)

A rapid overview of my work in interactive learning development using Articulate Storyline, Rise 360, and ADDIE-based design documentation. All samples demonstrate accessibility, clean UX, Section 508/WCAG alignment, and scenario-based learning principles.

Sample Type	Description	Link
Storyline Interactive Scenario	A branching micro-scenario featuring decision-based outcomes, realistic dialogue, and accessible UX.	https://jays305-arch.github.io/assets/samples/storyline/index.html
Rise Microlearning Module	A responsive micro-course optimized for mobile and desktop learning. Features simple structure, lightweight interactions, and clean branding.	https://jays305-arch.github.io/assets/samples/rise/index.html
ADDIE Storyboard + Design Doc	A full instructional storyboard and assessment blueprint for a compliance-themed microlearning experience.	https://jays305-arch.github.io/docs/ADDIE_Compliance_Microlearning_Storyboard.pdf
